Education

Associates of Applied Science,
Columbus State Community
College | May 2018
Major: Computer Science

Recognition

[Comspark 30 Under 30 in
Technology 2019](#)

I am a versatile software engineer with a strong foundation in UI/UX design and a proven track record of delivering high-quality projects. My proficiency spans a wide range of modern languages, tools, and platforms, enabling me to create visually appealing and highly functional websites. If you are seeking a full-stack software engineer who combines technical expertise with creative flair to produce engaging and user-friendly websites and applications, I am eager to bring my skills to your team.

Experience

Software Engineer - LEAP (spark) - Feb '22 - Dec '23

- Maintained and optimized custom-built web applications using .NET Core, C#, Angular, and Typescript
- Continuously compiled, validated, and deployed new code to high-traffic web sites and applications
- Transformed mockups into responsive, accessible, tested code
- Engaged in cross-functional collaboration with marketing and other non-technical teams
- Developed custom WordPress themes and plugins primarily using PHP, Typescript, Sass, and Parcel
- Performed technical audits of client websites and troubleshooted and debugged issues, improving user engagement up to 34%

Freelance Web Developer – Amoni Creative – Jan '20 - Present

- Troubleshooted and resolved issues for clients' .NET web applications and websites to ensure proper functionality, maintain UI/UX best practices, and improve site health
- Designed web pages for clients including web layouts, functionality, component styling, and typography using Figma and Adobe Illustrator
- Developed custom WordPress themes and plugins
- Transformed mockups into responsive, accessible, and performant websites
- Developed and maintained brand guidelines for clients
- Designed brand assets including logos, icons & graphics using Adobe Illustrator

Manager, Development & Design – TECH CORPS – May '16 – Aug '20

- Redesigned and maintained the WordPress website
- Redesigned and developed Moodle LMS to improve user experience and adhere to new brand guidelines
- Managed a team to develop and maintain courses on Moodle LMS
- Restructured Salesforce data architecture for generating tailored quarterly reports
- Designed program logos and course layouts using Adobe Creative Suite
- Designed graphic assets and curriculum materials using Adobe Creative Suite
- Facilitated trainings and events with volunteers, students, sponsors, and instructors
